

Literacy Cube

MSRP \$1,642.00

SALE \$1,396.00

Highlights:

- Colorful paint gives cube a friendly appearance
- Helps children learn about shapes and patterns
- Ideal for youth learning to crawl or beginning to walk
- Light enough that adults can move but too heavy for little kids

Age Group: 6 to 23 months

Unit Size: 3' x 3'

The Literacy Cube is an engaging portable play item that little children will enjoy crawling into and out of as they consider its differently shaped doorways. The cube is light enough for grownups to pick up and move while being heavy enough to prevent accidental movement from the little ones exploring the interior. You can incorporate the Literacy Cube into lesson plans at your school or as part of an impromptu education session. Children can be encouraged to crawl into the cube through a triangle and asked to leave via a circle, for example. This way they'll be combining physical exercise with a chance to enhance mental abilities. The cube's bright primary colors and welcoming design invites interaction and it'll be sure to be a big hit at your daycare, church, preschool or kindergarten. And the large opening overhead and ample width of the passages lets grownups easily see inside to monitor kiddos and make sure they're playing safely.
