

Uptown - Zion Bench with Back

MSRP \$2,572.00

SALE \$2,187.00

Highlights:

- 6-foot bench provides room for multiple guests at once
- Curved seat and back add comfortability
- Made of welded steel material for durability
- Finished in a powder coated paint color of your choice
- Portable/surface mount allows you to keep it mobile or stationary

The Zion Bench with Back offers a comfortable place to rest and recuperate. The bench's fully welded horizontal slats are properly spaced in order to allow airflow that will speed the drying process after rain showers. The tough legs of the seat are made of a laser-cut steel plate. The bench features an attractively designed shape with modern lines as the legs of the bench meet to create a triangular shape. It would work especially well on city sidewalks, in park plazas, or within office lobbies. There are a wide variety of alternate color choices that can be applied as a powder coat finish. This hearty powder coating can handle exposure to harsh weather to ensure that your bench's colors stay bright for years to come. The Zion Bench with Back has a portable/surface mount combo so you can keep it mobile or attach it to the ground.
