

Uptown - Zion Bench with Back with Side Armrests

MSRP \$2,823.00

SALE \$2,400.00

Highlights:

- 6-foot length allows multiple to sit at once
- Armrests add comfortability
- Portable/surface mount combination allows you to keep it mobile or stationary
- Variety of color options to choose from to customize the unit

The Zion Bench with Back with Side Armrests presents an opportunity for a tired walker to sit down for a moment and eat some lunch, make a phone call or just people watch for a bit. The occupant's comfort will be enhanced by the two armrests that cap off either end of the bench. This seat is made of fully welded steel for its strength. It is 6-feet in length and features strong laser-cut legs to make it usable for a variety of body types. The careful spacing of the bench's slats prevents puddling of rain after a storm so your bench will be safe to sit on faster than a solid bench. This seat can be bought in the color shown or you can change the tone to meet your specific needs. The frame is painted in a durable powder coat application that keeps the paint job dazzling even after exposure to the harshest weather conditions. This unit features a 2-in-1 portable/surface mount base combination that allows you to keep it mobile and gives you the option of securing it in one location.
