- Comes with four sturdy and attractive chairs
- Spacious, solid 36-inch tabletop offers ample room for activities
- Powder coated metal creates a durable finish
- Colors are customizable to your preference

Webcoat's Biscayne Patio Table and Set of 4 Chairs is an ideal furniture solution for everything from creating intimate patio dining at restaurants to filling out a sunroom at a private country club or hotel. The geometrically designed backs of the four chairs are an attractive embellishment for the ruggedly durable seats. The solid 36-inch table surface is spacious with rounded edges to maximize comfort for resting arms. The table works as a portable unit or can make use of the pre-drilled holes for surface mounting. The steel material of the set is finished with a powder-coated application of paint and the table and chairs are purchasable in either the color shown here or customizable to a shade of your choice. The powder coating approach ensures longevity and helps protect your investment for years against inclement weather. Please contact a AAA State of Play salesperson for more details on colors available and scheduling.
