COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Adventure is only a warp pipe away on the Tubes Ahoy Play Structure. The key feature of this structure is the double stacked Curved Tube Bridges. Children are fascinated with crawling through tubes and this structure doubles the tubes available. But there is more to the structure than just tubes. The Rock Hole Climber and Snake Climber both lead to the Double Slide deck. A Straight Slide is just a tube crawl away with its very own Ship's Wheel at the helm of the deck. On the ground level, Bongos, Single Drum and Rain Wheel await an impromptu concert. And to the side is a Store Panel waiting to be stocked for the next set of customers. Wherever a child goes, there is something to catch their interest. The Tubes Ahoy Play Structure comes in your choice of plastic and metal colors from our list of custom colors.
