

## Uptown - Arches Steel Slatted Bench without Back

**MSRP \$1,153.00**

**SALE \$981.00**

### Highlights:

- Spacing between slats permits air flow
- Modern style for contemporary locations
- Rugged steel material for added durability
- Backless construction allows for access from both sides

Add a touch of modernity with the Arches Steel Slatted Bench without Back. A curved seat without a back allows for maximum mobility by users and can help them to improve their posture. People can move their legs about on the curved seat and turn sideways to straddle the bench. Since there is no back, they can also face either direction. The steel slats create an incredibly strong and sturdy bench. It is powder-coated, creating a smooth finish that is durable. A vibrant array of color options are available, allowing you to customize the bench to your fondness. The minimal design grants you the ability to place this bench anywhere. It is phenomenal for schools, parks, trails, or your commercial property. This item is available in an in-ground or surface mount unit. Ask a salesperson for more details.
