Webcoat's 5-foot long Kind Kids Buddy Bench with Classic Style with Back is a seat built just right for the smallest youngsters. With this cute bench set aside on the grounds of your church, preschool, or daycare, you will be sure to see lads and lasses setting aside some time every day to learn a bit more about each other and grow their friendships. With its detailed silhouette of a small boy and girl holding hands, the artwork on the seating's front promotes benevolent messaging about the benefits of expanding your heart to include others. The strong metal construction will stand up to years of use and withstand the damaging effects of weather. The powder-coated frame and textured polyethylene application to the seat can each be color customized. This allows you to have similar surfaces or two different coordinating hues.
