MSRP \$82.20

SALE \$70.00

Highlights:

- Comes in set of two clamps
- Powder coat finish resists damage
- Durable metal material to match Webcoat tables
- Allows portable Webcoat tables to be in-ground mounted

This In-ground Post Set for Portable Webcoat Tables (Includes 2 Clamps) and can be bought as a set of two and is designed for use with Webcoat picnic tables. With this hardware you will be able to lock a table that is portable by nature into place, making it a more permanent fixture in your outdoor area. This in-ground mounting solution will help prevent your commercial-grade furniture from being vandalized or moved unnecessarily, protecting your investment and making sure it lasts for the years to come. The powder-coated finish on the hardware resists scratches and helps hide abrasions. Even if you are currently satisfied with your existing Webcoat tables being portable, it never hurts to have a set of these on hand in case you find yourself doing a major site overhaul in the future and wanting to enact changes right away without waiting on parts shipping out after an order.
