

Leash Holder Recycled Plastic Dog Park Play Equipment

MSRP \$800.00

SALE \$680.00

Highlights:

- Partly made of recycled materials
- Holds four leashes at once
- UV stabilization prevents color fading
- Eliminates one of the hassles that occur from dog outings

When it is time to cut the dogs loose for playtime, dog owners will place their leashes on the Leash Holder Recycled Plastic Dog Park Play Equipment for convenient placement. This allows dogs to run freely without getting tangled with their friends who are also in the area, limiting awkward situations and preventing pets from getting injured. This also relieves the owners from having to carry the leash for the entire duration of the outing which allows them to more easily play and engage with their animals. The center post is made of 100% recycled materials, adding to the value that it will have on your playground, serving as both functional and eco-friendly. The holder has four hooks that allow pet owners to hang up to four items at the same time. You can add more than one leash holder if you have a high-traffic area. The Leash Holder Recycled Plastic Dog Park Play Equipment is a quality investment that will serve your area for years to come.
