

Limbone Recycled Plastic Dog Park Play Equipment

MSRP \$896.00

SALE \$762.00

Highlights:

- In-ground mounted to keep it in place
- Height adjustable center pole
- Eco-friendly build features posts made of recycled plastic
- Test jumping capabilities of your local pets

How high will your hound hop over this Limbone Recycled Plastic Dog Park Play Equipment? Pet owners will be testing their dogs' capabilities as they challenge them to jump over the horizontal pole. Alternatively, they can see how low their pups can get by encouraging them to go under the pole. They can adjust the height of the item by moving the horizontal pole through the tracks, landing it on one of the four different heights built into the stands. This also makes it so that both large and small dogs have a chance to take on the challenge, providing something for everyone. The posts for this item are made of recycled plastic material to reduce plastic waste. You can count on it to be durable and withstand heat and rain from the weather. In cases of rain, mud may come, but rest assured as the Limbone Recycled Plastic Dog Park Play Equipment is easy to clean due to its plastic material.
