When laying their eyes upon Puppy Paradise Recycled Plastic Dog Park Play Equipment, eager dogs will mistake it for heaven seeing all of the different activities that they can partake in. The bravest dogs will dart through every activity excitedly trying to decide which to try first. Shy dogs may be intimidated at first, but since this is a beginner course they will soon realize the fun that awaits at this puppy playground. The Stepping Up and Camel Hump Climber will test a dog's balance and build legs muscles as they work their way to the top of both items. Nice Turn will be a test of agility as they go from end to end through the tunnel. The Jump Through panel will have pets hopping with joy from one side to the other. When they are ready to relax they can step up on Let's Rest and lie down on the planks to gather themselves, or they can chill under the shed-like Home Sweet Home and sit in the refreshing shade it offers.
