Dogs can climb new summits with the Step Up Recycled Plastic Dog Park Play Equipment. Installed at three different heights, the posts are mounted at 8-inch intervals. Standing at 8, 16, and 24-inches above ground, dogs can choose how high they want to go. Leaping on these steps is a fun activity that grants the dogs a new view of the field and is a stellar way to increase coordination, strengthen muscles, and improve balance. The simple and intuitive exercise great way to keep your canine friend physically fit and increase confidence in their abilities. Featuring an environmentally-friendly build, the posts are made from 100% recycled high-density polyethylene to reduce plastic waste. The posts are placed via in-ground mounts to provide a sturdy base. This helps prevent the steps from moving, no matter the size or weight of the dog.
