

Walk the Plank Recycled Plastic Dog Park Play Equipment

MSRP \$3,450.00

SALE \$2,933.00

Highlights:

- Easy-to-use activity that will improve a dog's coordination
- Bone steps create a dog-friendly theme
- UV-stabilized panels prevent fading
- In-ground mount produces a stout base

Keep your pets busy and physically fit with the Walk the Plank Recycled Plastic Dog Park Play Equipment! This unit is a superb addition to any dog park that vivacious pets will love. The structure is decorated with dog bone tread to entice your canine friends on and across the unit. Standing at a modest height, the climber offers a fun and safe exercise. Dogs can improve their scaling abilities by going up and down this tame unit. Climbing is not the only thing dogs can do on this structure. Dogs can weave around and under the elevated surface for added fun. The unit is mounted in-ground to produce a stable base and prevent unnecessary movement from dogs running across. Environmentally friendly, the posts are made from 100% recycled high-density polyethylene (HDPE) plastic. The panels are also UV stabilized, creating a durable structure that resists color fading even during bright and sunny days.
