

UltraLeisure Round Portable Table

MSRP \$1,518.00

SALE \$1,291.00

Highlights:

- Easy to clean after rainfall
- Surface openings permit cooling airflow
- Hole in the tabletop allows room for an umbrella
- Round shape encourages easy socialization

Featuring a classic design with a tough paint job, the UltraLeisure Round Portable Table is a superb seating option for any school, park, or place of business. There are four seats available so families and friends can play cards or chess, eat, or simply catch up with each other. There are pre-drilled surface mount holes to attach the unit to the ground (mounting hardware does not come with table) and a tabletop umbrella port so you can add a comforting overhead shade. The tabletop and seats come painted in a textured polyethylene coat while the frame is powder-coated. Textured polyethylene is scratch resistant and very hard to damage. It is also UV resistant to ensure the table keeps looking good, even after extended periods outside on sunny days. Both color applications are more durable than other types of paint jobs and will keep the furniture's shine going for years to come. If you want alternate colors from what's shown here on the tabletop, seat, and frame, just reach out to a sales representative for more information on what's currently available and discuss scheduling. The low-maintenance UltraLeisure Round Portable Table will be a sound investment for your site and a winner with its visitors .
