

42-inch Round Portable Cafe Table with 4 Attached Seats with Backs

MSRP \$1,938.00

SALE \$1,648.00

Highlights:

- Solid metal construction ensures durability
- Attached seating enhances portability
- Perforated surfaces accelerates drying
- Features standard size umbrella attachment point to add shade

The Webcoat 42-inch Round Portable Cafe Table with 4 Attached Seats with Backs is a complete commercial grade furniture set perfect for enhancing outdoor recreation spots. This unit works equally well for occupants looking to dine in the sun, have a pleasant conversation, or play a few hands of cards. The smartly designed surfaces of the round tabletop and the four attached seats are perforated which minimizes maintenance as the material will dry faster after a rain due to the enhanced airflow. The connected seats prevent chairs from being taken away from the site. The central point of the circular table has a standard sized umbrella port for later connection if you want to add shade to the equipment. The powder-coated frame and textured polyethylene tabletop and seats provide a protective finish to keep the table looking like new. The colors of both finishes for the 42-inch Round Portable Cafe Table with 4 Attached Seats with Backs can be adjusted to match your specific needs, so you are not limited to what is shown here. A number of alternate hues are selectable. Just reach out to a AAA State of Play customer service representative to learn more about the possibilities.
