

Cyclist Theme Bike Rack

MSRP \$710.00

SALE \$604.00

Highlights:

- Draws cyclist attention
- Park and secure 2-4 bicycles
- Fun design resembles a bike
- Multiple mounting options

Webcoat's smartly designed Cyclist Theme Bike Rack is built of high-quality and tough steel that has been playfully shaped into an outline of a bicycle itself. Including such an installation in your plans is a surefire way to build interest from the cycling community and encourage visitation to your town square, corporate headquarters, or shopping district. This durable and strong rack can accommodate parking and secure 2 to 4 bicycles at a time. The resilient stainless steel is finished with a powder coat application and is UV, water, and mildew resistant. That makes this unit more than capable of handling years of daily use while still looking good in the process. The Cyclist Theme Bike Rack can be bought with surface or in-ground mounting hardware. And if you do not like the color shown here, please contact a AAA State of Play sales representative to talk about alternate choices and learn of scheduling availability.
