MSRP \$527.00

SALE \$448.00

Highlights:

- 30-inch diameter table top
- Surface and in-ground mounting options
- Ideal height for exterior bar locations
- Smaller size lets you group several close together

Webcoat's 30-inch Round Bar Height Pedestal Cafe Table works great when you're looking to expand the lounging areas of outside locations at your business. The height of this unit is perfect for adults preferring to stand together and chat while still needing a spot to place their beverages or other items. The 30-inch diameter tabletop is big enough to also accommodate a small plate or two, ideal for diners who might want appetizers but won't require full sit-down service. The perforated surface of the table accelerates drying after rainfall, an especially helpful feature for outdoor furniture that will minimize the amount of maintenance you'll need to perform. The textured polyethylene surfacing on the top of the table is available either in the color shown here or you can have the hue adjusted to one of several alternate colors. Please contact AAA State of Play to learn more about what colors are currently available and learn of any possible lead time differences.
