Highlights:

- Coat it in your choice of textured polyethylene color
- Lid, liner, and mount can be purchased separately
- Easy to clean, graffiti-resistant material
- Paw design will grab the interest of pets and owners

Capacity: 32 gallon

Make clean-up easier for dog and pet owners by adding the Paws Design Perforated Style Trash Receptacle to your bark park or outside area. With something as unique as dog parks, simple and bland trash cans just will not cut it. This 32-gallon trash receptacle features circle-shaped perforations that circulate around the item. This allows air to flow in and out, minimizing harsh smells and expediting drying times. In addition to the perforations, it also features paw print carve-out for an added flair. As stylish as it is functional, the metal is coated in a textured polyethylene paint that is a long-lasting, weather-resistant, makes colors pop, and resists graffiti. Be sure to include a lid and liner to really make the design stand out (both items sold separately). Mounts can also be purchased to firmly secure the receptacle in place. Talk to a sales representative for more details and color options.
