

Slope Style Bike Rack

MSRP \$204.00

SALE \$174.00

Highlights:

- 2 bike capacity
- Sleek, inclined design
- Surface or in-ground mount available
- Powder coated for a long-lasting finish

The Slope Style Bike Rack is a slim and compact rack that can be anchored in any location. At 38-inches tall and 28-inches wide, this unit can be placed anywhere, even in the most compact of spaces. It can be set up in any park, school, city sidewalk, or place of business. The inclined design adds a bit of style to the unit and can secure up to 2 bikes at once. If there is heavy traffic or a heavily populated area, the lean design allows for multiple bike racks to be placed side by side without taking up too much space. Made from steel, it is strong and will last for years on end. This bike rack can be installed via a surface or in-ground mount, depending on your preference. Being powder-coated, this bike rack comes in a diverse selection of colors. Contact a sales associate for more information.
