- Expanded tabletop provides extra space for wheelchairs
- Unit is protected in long-lasting powder and polyethylene coating
- Heavy-duty 4-inch frame provides a robust foundation
- Rolled edges are comfortable on legs for long-term seating

Places of gathering should have room for everyone, including those with mobility aids such as wheelchairs or walkers. The ADA Accessible Rolled Rectangular Pedestal Frame Picnic Table with Detached Seating keeps everyone in mind as it offers a space for those who utilize wheelchairs or scooters. This is seen through its overhanging table space that allows for those using these mobility devices to easily slide their transportation underneath the tabletop without being obstructed by uncomfortable bars or seats. The powder-coated heavy-duty 4-inch frame provides a strong foundation while the tabletop and seats are made of expanded metal that is coated in a textured polyethylene coat for added protection. The perforations allow air to flow freely throughout the table, keeping the metal cool on sunny days and helping it quickly dry on rainy days. The colors for both finishes are customizable to blend in with your venue. The ADA Accessible Rolled Rectangular Pedestal Frame Picnic Table with Detached Seating comes with in-ground or surface mounting options to securely affix it in place depending on your surfacing.
