MSRP \$1,805.00

SALE \$1,535.00

Highlights:

- 6-foot long top provides ample table space for various activities
- Pre-drilled umbrella hole offers space to add shade for outdoor areas
- 4-inch frame creates a stout base
- Long-lasting finish provided by the powder and textured polyethylene coats

No park is complete without the Regal Rectangular Single Pedestal Frame Picnic Table with Attached Seating. Designed to accommodate large groups of people, the sizable tabletop gives plenty of space for friends and families to eat, play games, or simply chat with each other. It also provides ample space between strangers to sit down and relax or read comfortably without being in each other's way. An umbrella hole is included in the center of the tabletop in case shade is needed for particularly sunny, open areas. This makes it perfect for parks, schools, restaurants, or any outdoor venue. The tabletop and seats are painted in a textured polyethylene coat, creating an ultra-tough, scratch-resistant structure that will look like new for years to come. The 4-inch metal frame is powder-coated to create an astoundingly sturdy and stylish base. Choose between an in-ground or surface mount to securely affix it to your area.
