- Diverse selection of climbing activities
- Bison image creates a wild west theme

Age Group: 5 to 12 years

Capacity: 49 - 79 children

Use Zone: 41' x 34'

The Bison Recycled Playset offers plenty of fun activities that will keep kids busy for hours. Each side of the hexagonal decks has an exciting activity waiting for children. Several climbers grant kids various methods to climb on and off the structure. They will test their athletic abilities as they weave through the Long Lazy Loop Climber, scale the geometric shapes of the Timber Wall Climber, and climb across the Rope Net Climber. These also offer easy access to the slides. This unit comes with two - one on each deck. Friends can race each other on the Double Slide while others can twirl around the Open Spiral Slide on the opposite end. Alternatively, kids can travel from one island to the other with the Rope Tunnel Climber. A boulder wall stretches horizontally and offers a safer climbing alternative. Additionally, each deck has a matching hexagonal shade that protects it from the rain and sunlight.
