- Build strong upper bodies with the ring ladder and Super Glider

**Age Group:** 5 to 12 years

**Capacity:** 59 - 89 children

**Use Zone:** 55' x 42'

Take a trip to paradise with the Caribbean Hideaway Recycled Playsystem from Play Mart! Tropical images such as dolphins, seahorses, anchors, and pirates adorn the panels of this structure. Additionally, thatched roofs and palm tree tops make you feel like you are on a beach. To make you feel even better, the unit incorporates recycled high-density polyethylene in its construction to create an environmentally-friendly playground. Not only did Play Mart aspire to make the unit feature recycled material, but it also designed the structure with a plethora of exciting activities. A Jog Ring Ladder and Sloping Super Glider help strengthen upper bodies and increase body coordination. Kids can move and weave as they ascend up the Lazy Loop and Double Loop Climbers to reach the trio of slides surrounding the structure. They can start off with the tame 3-foot Turning Slide and work their way up to the twirling 6-foot Open Spiral Slide to relax after a long day of climbing.
