- Impressive 6-foot long Chute Slide

**Age Group:** 5 to 12 years

**Capacity:** 25 - 31 children

**Use Zone:** 33' x 27'

Give kids their own getaway with the Clubhouse Recycled Playground. A "Kids Only!" sign decorates the pitched roof, inviting kids from all over the playground to come and play. Planks adorn the sides of the structure and mimic real wood without the worry of termites, fungus, or splinters. The welcoming playground offers plenty of paths to climb up, including the Quadra Stepper to quickly and easily access the unit. The Spiral Loop Climber offers another fun way to access the platform. Culminating the journey is the 6-Foot Left Veer Chute Slide. Kids can pull themselves up via the 6-foot Rope Climber or scale the Clear Vertical Rock Wall Climber to directly access the slide and glide down again, invoking hours of fun. The Clubhouse Recycled Playground incorporates Recycled Structural Plastic (RSP) in its construction, making it the obvious choice for environmentally friendly schools, churches, or parks.
