**Use Zone 1:** 50' x 40'

---

Keep children entertained with the Cougar Recycled Plastic Playground from Play Mart! The aptly named structure has several photographs and drawings of cougars that are placed on panels to capture the attention of youngsters passing by. It has five slides surrounding it, offering plenty of opportunities for kids to glide down. This means that kids will spend less time waiting and more time having fun! Friends can race each other down on the 4-foot Double Wave Slide while others can twist down the 6-Foot Open Spiral 360 Slide. Several climbing activities are also offered, including the 4-foot Rope Net Climber, 5-foot Rock Wall Climber, and Spiral Loop Climber. The icy blue color scheme evokes the feel of a frozen tundra. Play Mart uses EcoColor Plastic that is UV protected to keep the unit colorful for years to come. They specialize in creating playsets with recycled materials. The decks, steps, railings, and posts are made from recycled High Density Polyethylene. This proprietary Recycled Structural Plastic (RSP) is a great alternative to wood as it is immune to termites, fungus, and splinters. Talk to a AAA State of Play sales representative for more information.
