Age Group: 5 to 12 years

Capacity: 45 - 69 children

Use Zone: 38' x 36'

Give kids a place to run and jump around with the Mink Recycled Playset from Play Mart. This colorful unit produces a sunny and exciting atmosphere. A photograph of a mink adds a cute element to the commercial-grade structure. The playset delivers both strong aesthetics and also holds a tremendous amount of exhilarating activities. A 4-foot Right Turn Slide immediately starts the fun on the hexagonal deck. The platform is covered with a hexagonal roof to keep guests shaded and cool during the hot summer days. Kids can challenge themselves even more by going up the other, taller platform. It is perfect for adventure seekers as it features a Dual Textured Wall Rocky Climber, a Vortex Climber, and a 6-foot Open Spiral Slide. A triple threat, this unit also uses recycled plastic in its construction. The Mink Recycled Playset delivers striking imagery, is action-packed full of activities, and is eco-friendly.
