

Orca Recycled Playground

Price \$33,696.00

Highlights:

- Images of aquatic animals adorn the unit
- Double slide allows friends to race each other
- Curbs plastic waste by using recycled plastic
- Jog Ring Overhead ladder is a great way to build strength

Age Group: 5 to 12 years

Capacity: 42 - 60 children

Use Zone: 34' x 47'

Sail the oceans and create an aquatic seaworld with Play Mart's Orca Recycled Playground. Various engravings of aquatic animals and ship anchors dress up the panels and roofs of the unit to produce a nautical theme. A photograph of an Orca provides the finishing touch on the structure of the same name. The unit is eco-friendly and uses recycled plastic in its construction to help keep plastic waste from entering our waterways. Children can begin playing immediately on the Jog Ring Overhead Ladder as a way to reach the main part of the unit. Or they can instead start right at the structure via the easy-going ADA Transfer Steps. From there, kids can trek up and compete against their friends by zipping down the 5-foot Double Wave Slide. A taller, 6-foot Right Veer Star Chute Slide is on the opposite end. Kids can scale up the diverse set of climbers such as the Rock Wall Climber or the Rope Net Climber to directly access the slides and start the fun all over again.
