- An eco-conscious playground choice

**Age Group:** 5 to 12 years

**Capacity:** 29 - 45 children

**Use Zone:** 40' x 28'

---

Play Mart's Rocky Raccoon Recycled Playset is a neat and tranquil playset that is perfect for kids aged 5-12. Inspired by the animal, the playset exhibits a photograph of a raccoon and has paw prints decorating the outside panel of the beginning stairs. Youngsters will enjoy gliding down the 3 and 4-foot slides while older kids will flock to the various climbers. The Arch Climber is a great starter for newcomers while advanced athletes will love the twisting bars of the Vortex Metal Climber. Kids young and old can pretend they are professional racecar drivers with the Driving Panel. A separate Driving Wheel Panel sits atop the unit, allowing two places for imagination to occur. In accordance with the wildlife theme, Play Mart built parts of the Rocky Raccoon Recycled Playset using recycled plastic. The posts, decks, and stairs feature this recycled high-density polyethylene to create an environmentally-friendly playset.
