- Platforms, handrails, staircases, and posts are made from recycled plastic

Age Group: 5 to 12 years

Capacity: 45 - 69 children

Use Zone: 43' x 33'

Play Mart's Stoneybrook Recycled Plastic Play System is a beautiful commercial-grade playground structure that is colorfully painted in a vibrant assembly of blues and greens. For children with lots of energy to burn, this unit is going to be a dream come true. Horizontal and vertical climbing opportunities are never in short supply. The Vortex Climber is a twisting assembly of metal rungs that will be sure to challenge a youth's ability to make their way to the structure's upper platforming. A Sloping Super Glider lets children use gravity and their own momentum to swoosh through the air while holding tight onto a moving handle attached to an overhanging metal bar. These are just two of the exciting challenges that kids will be having fun facing while also getting exercise and enhancing their kinesthetic learning. There are dramatic play opportunities at spots like the ADA Daytona Panel or the Storefront Panel with its two Kids Benches.
