Use Zone: 37' x 34'

The Piper Recycled Playsystem by Play Mart is an evocatively designed activity unit that perfectly emulates the visual of a parked airplane. From the propeller mounted on the front to the slides that double as wings, this commercial-grade playscape seeks to cover all the tiny details that will really help a child's imagination soar. Structures like the Piper help youngsters imagine future professions they might like to pursue or consider places that they could travel to. This patriotically painted playscape further emphasizes aviation imagination by way of ingredients like an Airplane Parts panel, bold stars, a Gauges Panel, and facsimile wheels and windows. Just imagine the thrill kids will get once they climb up the Flat Step Ladder and find a turnable Driving Wheel in the cockpit! Other youth who do not want to play at being pilots or mechanics can still find fun by bouncing across the Sloped Clatter Bridge towards one of the two 4-foot Wave Slides. Play Mart's Piper Recycled Playsystem uses large amounts of recycled plastic material in the posts, decks, rails, and steps.
