- Five different slides and multiple bridges, ladders, and tunnels
- Game and activity panels and thrilling eagle imagery

Age Group: 5 to 12 years

Capacity: 100+ children

Use Zone: 94' x 62'

Play Mart's enormous Eagle Recycled Play Structure is an all-encompassing activity landscape that can easily accommodate dozens of kids simultaneously. With multiple paths to scramble up, slide down, and climb across, this commercial-grade installation is sure to become a youngster's fast favorite and likely require multiple visits to even begin exploring every piece of it. This entry in Play Mart's Mega line of playscapes features five slides, including a towering tube slide. Ample shade is provided by a number of overhanging roofs. A number of rope tunnels and rock walls will help kiddos develop their upper body strength and agility. A gently sloped ramped portion of the structure is ADA accessible so those who have wheelchairs are not denied the chance to take part in the fun. This helps them achieve a level of elevation equal to some of the other higher portions that are otherwise only reachable by physical challenges like the Spiral Loop Climb or the Wiggle Stepper. Play Mart's Eagle Recycled Play Structure incorporates large portions of recycled plastic material in its construction, making it a "greener" choice for those wanting to design an eco-conscious playground site.
