

ADA Accessible Regal Rectangular Double Pedestal Frame Picnic Table with Attached Seating

MSRP \$2,007.00

SALE \$1,706.00

Highlights:

- Table overhang allows for easy wheelchair access
- Perforated design encourages air flow
- Lustrous appearance that can withstand weather
- Diverse selection of colors available to match your venue

Make your location a welcoming destination with Webcoat's ADA Accessible Regal Rectangular Double Pedestal Frame Picnic Table with Attached Seating, a commercial-grade outdoor furniture piece that makes gathering easy for all. The unit achieves its ADA accessibility by way of one end of the long table having a slight overhang with no benches running alongside it. This allows occupants in wheelchairs to move right up to the table edge and sit alongside other occupants using the installed benches. This durable unit has expanded-metal perforated surfacing to speed up air-drying after rain showers. The ADA Accessible Regal Rectangular Double Pedestal Frame Picnic Table with Attached Seating is purchasable with the colors you see here or you can alter the color scheme to fit your specific design needs. The frame is powder-coated while the tabletop and seats feature a textured polyethylene coat. Just reach out to a AAA State of Play salesperson over the phone or via email to learn more about what other possibilities currently exist.
