

## ADA Accessible Regal Rectangular Pedestal Frame Picnic Table with Detached Seating

**MSRP \$1,527.00**

**SALE \$1,298.00**

### Highlights:

- Bench seat on both sides of table
- Overhang with 24-inch clearance allows wheelchair access
- Colors are customizable
- Textured polyethylene table and seats and powder coated frame

This ADA Accessible Regal Rectangular Pedestal Frame Picnic Table with Detached Seating by Webcoat is built of a metal frame finished with a powder coat application of durable paint. The seats and table surfaces are covered in a layer of textured polyethylene. Both coloring processes create appearances able to withstand even the harshest effects of the weather and keep colors looking attractive for years to come. There are two nearby benches attached to the ground but disconnected from the framework of the table. This allows greater maneuverability for those sitting down on the benches while also ensuring that the seats don't disappear, as might occur with vandals accessing detached seating. The overhanging portion of the tabletop has 24-inches of clearance to facilitate easy parking of a wheelchair and thus allow those of different physical abilities to easily join their counterparts in recreation or dining at the table too. This ADA Accessible Regal Rectangular Pedestal Frame Picnic Table with Detached Seating is available in a 6-foot and 8-foot long version. In addition, you have your choice between surface mounting or in-ground mounting. And if you're not liking the colors shown here, call a AAA State of Play salesperson to learn more about current alternatives.
