Use Zone: 51' x 52'

Webcoat's Best in Show Recycled Plastic Dog Park Play Equipment is an expansive set of canine activity items that includes almost every one of Webcoat's dog play products. With a large 51-foot x 52-foot use zone, this collection of games and exercises will be sure to have your site's visitors more than happy at just how much their pet will get to do at the park that day. Fido can dash through the building-like tunnel of the Home Sweet Home structure before crawling beneath the giant bone of the Over and Under obstacle. Another dog might be fascinated by the easily gripped ramps of the Walk the Plank climber. There are platforms, jump bars, hoops, and more. Owners of breeds that benefit from the rigorous daily workout will especially be drawn to your location's dog park once this assembly gets installed. The simple to clean and maintain equipment utilizes in-ground mounting and features recycled HDPE posts for an environmentally-friendly build.
