

Recycled Wiggle Steppers Balance Structure

Price \$4,212.00

Highlights:

- Staggered steps offer a unique challenge
- Posts incorporate recycled plastic for an environmentally-friendly build
- Steel support bars are covered in SureGrip paint to prevent falls
- Mini trail promotes balance and coordination

Age Group: 5 to 12 years

Kids will have a blast as they trek across the Recycled Wiggle Steppers Balance Structure from Play Mart! This unit offers an excellent balancing activity for school or park playgrounds. Each of the four kidney bean-shaped footrests has a bar going through them to offer additional support. Little chains at the bottom allow some room for movement to offer an extra challenge. The staggered steps grant a superb way for children to work on their balance, hand strength, and overall body coordination. The four steel bars are covered in Play Mart's unique SureGrip technology. This special mixture features a textured, wrinkle coat to increase friction and grip, thus reducing falls. Additionally, it resists corrosion and fading to keep it looking nice and neat for years to come. Best of all, it is made using some "green" material, like the posts which are made from Recycled Structural Plastic. This creates an all-around eco-friendly structure.
