

Outdoor Social Distancing Safety Shield

MSRP \$1,300.00

SALE \$1,105.00

Highlights:

- Helps minimize respiratory droplet exchange
- Durable Lexan barricade fits Webcoat's line of 6-foot tables
- Two interlocking clear walls centered on tabletop
- Lightweight ½-inch thick panels are easy to maintain

Promote smart gathering in safe and clean environments with the Outdoor Social Distancing Safety Shield. With the included hardware, you simply attach the two interlocking panels perfectly on top of any of Webcoat's 6-foot tables. The clear pieces combine to form a plus-sign wall that shields up to four people sitting down together simultaneously. Everyone can then see and talk to each other. This makes the product great for helping organize small social gatherings where maintaining 6-foot distancing might otherwise be difficult. When assembled, the unit measures 23-inches high x 64-inches long x 29-inches wide. The Lexan walls are ½-inches thick and still lightweight enough to be easily moved, making them easy to sterilize and maintain. Lexan can withstand high-impacts and resist cracking, making for an exceptionally durable unit. Add this simple solution to your existing furniture today to see interaction and socialization return (table is not included with this product). Just speak with a AAA State of Play salesperson for more information.
