

Rectangular Shade Shelter with 10 feet high Entrance Height

Price \$4,264.00

Highlights:

- Protects equipment from weather damage
- Helps prevent sunburn and keeps kids playing longer
- Glide elbows allow for quick shade removal should inclement weather occur
- Large selection of colors allow for customization

The Rectangular Shade Shelter with 10 feet high Entrance Height by Superior Shade is ideal for protecting children and equipment from the potentially harmful rays of the sun. The unit can help prevent sunburns or overheating and allow children to play longer. A shade is a great way to keep play equipment cool and comfortable to prevent burns and discomfort so children can play outside on hot, sunny days. The rectangular cover comes in many sizes to suit the needs of a variety of recreational areas. The durable fabric can shade picnic areas, play structures, freestanding play elements, sandboxes, pools, and more. A wide selection of color options means this shelter can be seamlessly incorporated into existing playgrounds or inspire a color scheme for a new one. Glide elbow options are available to ease the installation and removal process of the fabric in case of inclement weather. Two different mount options make the structure sturdy and allow the shade to be installed in the soil or on hard surfaces such as concrete.
