

Square Shade Shelter with 12 feet high Entrance Height

Price \$5,389.00

Highlights:

- Color options to suit any area
- Shields kids from direct sunlight
- Protects equipment from the elements
- Mounting options allow for installation in a variety of places

The options are nearly limitless with the Square Shade Shelter with 12 feet high Entrance Height by Superior Shade. With a diverse range of colors to choose from, this sturdy shelter can perfectly match any recreational area with ease. Two mounting options allow this versatile shade to be installed in almost any environment. And optional glide elbows make removing the shade easier and are ideal for areas with unpredictable or inclement weather. A shade is perfect for protecting people from the dangers of sun exposure and keeping kids playing for as long as they possibly can. This versatile shelter can be used at any time of the year as a protective barrier for not only the people but for playground equipment as well. Discoloration from exposure to the elements can really affect the appearance of play elements and park furniture. Fortunately, this heavy-duty square shade was made to last and can shield your investments at playgrounds, parks, pools, and schools.
