**Capacity:** 1

**Use Zone:** 13' 10" x 13' 10"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Prepare to hear non-stop giggling as kids zip 'round and 'round on the Single Pirouette Standing Spinner. The spinner boasts a slim design, allowing it to fit almost anywhere in the playground. It can serve as a stand-alone unit or as a connecting point along a path thanks to its slender build. The curved post gives users ample room to stand centered on the platform as they whirl. The bowed design also grants kids an easy way to help generate the momentum to spin faster and faster. A circular polyethylene base with strategic layering provides space for one user to stand while keeping their footing secure via the oval-shaped shoe grips. Spinning is a tremendous way for kids to learn about speed and direction. As they twirl, kids will work on keeping their balance via the vestibular system, coordinating their movement to stay atop, and increase their muscle tone.
