Capacity: 8-15

Use Zone: 22' 4" x 22' 4"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Playground Equipment dot-Com's Freestanding Curved Post Overhead Swinging Ring Ladder is a commercial-grade physical activity unit suitable for outdoor locations like town squares, church daycares, or park play zones. Designed for use by school-age children, this climber presents kids with a number of options for how and where they'd like to begin ascending. The circular form of the product lets kiddos approach from any direction. Once at the climber, children can choose to scale up any of the obliquely lined rungs of the framework's four ladders. Alternatively, they can use their upper body strength to hang and swing overhand along the path of handles or make their way to the additional bars arranged in the middle of the upper frame. As they play, children will be improving their cardiovascular health and building up their arm, leg, and back muscles. This Freestanding Curved Post Overhead Swinging Ring Ladder is available in the colors shown here or you can have the hues adjusted to better match your site's goals. Call or email us to learn more about custom coloring.
