ASTM F1487-17

CPSC PUB #325

Playground Equipment Dot-com's Freestanding Straight Post Triple Wing Climber will be sure to inspire children to clamber up its cool panels as soon as they see it. This commercial-grade playground climber is suitable for a wide range of outdoor locations, from schoolyards and daycare centers to municipal parks and apartment complexes. The trio of oval-shaped panels is arranged in a challenging configuration that will test kids' ability to successfully maneuver from one to the next. Each panel has three cut-out portions that are suitable for hand or foot placement during children's elevated traveling. The tough polyethylene panels and the galvanized steel framework combine to make this unit strong enough to deal with years of use and withstand the damaging effects of rain, snow, and sun. The Freestanding Straight Post Triple Wing Climber can be bought in this displayed color scheme or customized to better suit your needs. Please contact our sales office to discuss color options and arranging scheduling.
