ASTM F1487-17

CPSC PUB #325

Combine the Freestanding Curved Post Bent Rung Vertical Ladder with other climber units or existing structures for a dynamic assortment of elements. The galvanized steel arch posts are built to last, resisting rust and withstanding damaging weather. The sturdy swerved climbing bars are spaced perfectly apart to accommodate the abilities of school-age children. Climbing is a great exercise for strengthening the arm, leg, and core muscles. As kids propel themselves up and pull their body weight to the top, they are toning and conditioning while simultaneously enhancing hand-eye coordination and agility. This simple installment inspires imaginative play for developing young minds and its compact design fits easily into nearly any space. The Freestanding Curved Post Bent Rung Vertical Ladder is powder-coat painted a color of your choice to fit seamlessly into established playgrounds.
