The Nest Swing Seat (includes Rope and Chain) by Playground Equipment Dot-com is the perfect addition to a variety of swing frames with the included rope and chain. It's built with commercial-grade molded plastic, made to endure the elements and maintain its color throughout the years. It's round, disc-like design resembles a tire swing and is meant to hold only one child at a time but offers extra space to sprawl for a unique swing experience. This play element can be very soothing for children of all ages and abilities as they pump their legs and experience the many sensations associated with swinging. Additionally, swinging requires the use of the arms, legs and the core, conditioning and strengthening target muscle groups during peak childhood development. The Nest Swing Seat (includes Rope and Chain) is a fresh take on swinging and adds valuable diversity to experiences on the playground.
