SALE \$721.00

Highlights:

- Comfortable floor cover and teaching tool
- 100% polyamide stain resistant material
- Colorful design with easily readable letters
- Resilient 3-ply felt backing prevents creasing

Teachers and daycare operators will have a helpful new learning tool at their disposal with the Large Alphabet Animal Rug - Rectangle. This brightly decorated floor carpet features a wide variety of friendly-looking critters, each of whom is shown in their own square next to an uppercase letter of the alphabet that matches the first letter of the animal's name. Children can rest comfortably atop this soft carpet and receive prompts to locate or identify specific colors, animals, or letters. Grownups can rest easy knowing that while little ones are developing cognitive reasoning they'll be able to enjoy snacks or drinks too. This 144 x 96-inch carpet is made from 100% polyamide and is resistant to stains, fades, and water spillage. The rug's tough 3-ply material can stand up to rough wear and tear and provides significant thermal and sound insulation. The Large Alphabet Animal Rug - Rectangle is large enough to allow several children to sit down at once.
