

Volleyball Equipment Storage Cart with Basket

Price \$845.00

Highlights:

- Made from high-quality, powder-coated steel tubing
- Can store six uprights, a referee stand and more
- Includes a canvas basket for storing balls and nets
- Padded to protect equipment from damage during storage

When the game or practice is over and it's time to pack up, AAA State of Play has you covered. The Volleyball Equipment Storage Cart with Basket measures 48" wide and 38.5" tall and stores up to six uprights, a ref stand and pads. Additionally, the canvas hammock on top can hold several nets, antennae or balls. This cart is durably built with rectangular steel tubing, finished with powder-coating and equipped with non-marking caster wheels that make it easy to roll. Padded top rails and post hangers protect the equipment from scuffs and scratches as it is packed and unpacked from the cart. This volleyball net storage system helps coaches and players keep everything organized in one place. A volleyball cart is a simple storage solution for schools, clubs or recreation facilities.
