

Cantilever Shade Shelter

Price \$8,357.00

Highlights:

- Available in multiple sizes for the multitude of different reasons that it can be used
- Modern design and simple lines
- Customize by choosing the fabric color
- Made to withstand the elements

When you need a shade structure but don't want to waste a lot of space with the support posts, the Cantilever Shade Shelter is the perfect choice. This unit is great at pool sides since the support posts are out of the way of swimmers and those walking on the deck. You can also use this shade to cover parking spaces, sports bleachers, or as an awning outside buildings. With twelve fabric shade colors, you will find one that matches your area. By providing shade for patrons, you are not only providing them with comfort, but protection from the sun. The Cantilever Shade Shelter is available with the option of glide elbows. These glide elbows aid in installation and removal of the fabric shade. You may wonder why you would need to remove it, but bad weather can damage the fabric, reducing the life of the shade. The Cantilever Shade Shelter is a great choice to shade your space.
