COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Safety always comes first on the playground, and tire swings are no exception. The Swivel Hanger for Tire Swing Seat with 3 Loops for 3.5-inch Top Rail has been rigorously tested and is made of high-quality galvanized steel. Featuring commercial-grade design and construction, this swivel hanger will supplement your tire swing experience by ensuring safety and efficiency. The three loops on the hanger will attach to the swing chains with a shackle; that will then attach to the clevises on the swing seat. This offers perfect spacing for children to sit comfortably on the swing and offers full 360 degree rotation. Additionally, this hanger will function as a replacement part for an existing tire swing. As a product of commercial quality, this swivel hanger will effectively reduce the risk of injury while giving your tire swing a clean, aesthetic appearance. Bring fun and safe tire swing options to the playground with the Swivel Hanger for Tire Swing Seat by PlaygroundEquipment.com.
