COMPLIES With:

ASTM F1487-17

CPSC PUB #325

If you're looking to liven up your playground, the 5-Foot Freestanding Slide with Snake Climber by PlaygroundEquipment.com is an excellent choice. Rather than the standard stair entrance design, the Slide with Snake Climber utilizes an alternating-rung ladder climber to access the slide. Kids will love the opportunity to take an interesting and beneficial climb to the top before the thrilling ride on the slide. Sliding and climbing are some favorite play time activities, making this independent play element a practical choice for sites catering to elementary-age children. The top of the slide is enclosed by commercial-grade galvanized steel bars to reduce the risk of falls. The rotational molded plastic slide won't overheat, especially on sunny, hot days, allowing kids to be able to play anytime of the day. Add the 5-Foot Freestanding Slide with Snake Climber to your playground and provide another high-quality piece of equipment that your playground users will love and enjoy.
