Add a twist to your playground with the 12 Foot Freestanding Spiral Tube Slide. This slide is among the tallest offered by PlaygroundEquipment.com and features sturdy, galvanized steel posts that hold up the slide and staircase platform to the entrance. Unlike a conventional straight slide, the spiral design of the 12 Foot Tube Slide prevents kids from going too fast on the way down, all while adding an intriguing element of fun. The scattered transparent panels allow parents to see inside and light to peek through, allowing the experience to be safe and comfortable. The stairs leading up to the top of the slide are also flanked by guardrails, which helps kids keep their balance as they confidently climb to the top. The swirling motion of sliding down a spiral tube slide can be a thrilling playground activity for elementary-age children. The 12 Foot Freestanding Spiral Tube Slide is sure to catch the attention of any child on the playground.
