Age Group: 2 to 12 years

Use Zone: 14' 8" x 9' 0"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The 75-foot Single Straight Hillside Slide is a piece of playground equipment that looks like something straight out of an amusement park. Built directly into an embankment, this slide works great when installed into highly-elevated surfaces. The Hillside Slide's close proximity to the ground improves the slide's safety, as kids are less likely to hurt themselves than they would be if sliding down elevated equipment. Additionally, the Hillside Slide has a variety of color customization options, so the slide will fit perfectly into your playground's existing color scheme. The Hillside Slide requires no excavation to install, although the landing area at the bottom of the slide can be customized with different surface options to best suit the needs of your playground.
